Aachen (Germany)

Profile

AI Growth & Operations Specialist with experience in AI-driven content systems, social media growth, email marketing and digital operations. Specialized in building scalable workflows, trend monitoring, content processes, lead generation and operational project coordination for digital brands.

Core Skills

- AI&Automation: n8n, Codex, Claude Code, Zapier, AI workflows, process automation
- Growth & Content: social media growth, trend monitoring, scripting, viral content systems
- Marketing Operations: email marketing, Kit, ManyChat, lead generation, campaign workflows
- Management: project coordination, team communication, deadline management, Notion systems

Professional Experience

Growth Operator & AI Operator

Elites Club, Remote | 03/2026 - Present

- Achieved organic growth to 35,000 followers in 3 months by building 20+ automated workflows (n8n, Claude Code, Zapier) for research, scripting and content production
- Generated 2M+ organic views through AI-assisted trend monitoring, cross-platform analytics reporting and data-driven content evaluation
- Reduced manual workload by 20+ hours/week by analyzing recurring tasks, automating processes and documenting reusable standards in Notion databases
- Acted as the bridge between the content team and technical implementation by translating business requirements into automated workflows

Project Manager / Product Manager

Personal Brands, Remote | 07/2025 - 04/2026

- Managed 3 personal brands with 500,000+ combined followers, maintaining deadlines and output volume through structured Notion database systems
- Improved team efficiency by standardizing internal workflows, documenting processes and turning them into reusable operating templates
- Executed content and growth strategies with creators, editors and marketing teams by prioritizing tasks and coordinating external service providers

Project Manager / Email Marketing Manager

Elevate Club, Remote / Dubai, UAE | 02/2024 - 06/2025

- Contributed to EUR 350,000+ in revenue through automated email funnels built with ConvertKit, Zapier and ManyChat, tracked via campaign reports and conversion analysis
- Managed an email database of 30,000+ contacts, focusing on clean data maintenance, segmentation and structured data management
- Created recurring performance reports by analyzing open rates, click rates and revenue data to optimize active campaigns
- Coordinated collaboration across 4 teams (Content, Community, Growth, Product) by gathering requirements and translating them into actionable processes

Education

- Mechanical Engineering Studies

FH Aachen, Faculty of Mechanical Engineering

09/2022 - Present

- German Language Examination for University Admission

DSH 3

06/2022
